SUMMARY

Passionate and detail-oriented Database Engineer with a strong foundation in SQL databases, database management, and natural language processing. Proficient in SQL database administration, including backup and recovery, query optimization, and implementing robust database security measures. Known for excellent problem-solving abilities, in-depth research skills, and effective collaboration with cross-functional teams. Dedicated to leveraging technical expertise to design and implement innovative database management solutions in a challenging and growth-oriented role.

TECHNICAL SKILLS

Programming Languages: Python, SQL

Database Skill:

- **Database Management Systems:** SQL Server (2016/2017/2019/2022), Azure SQL Database, SAP IS
- **Database Administration:** Installation, configuration, upgrades, and patching of SQL Server environments
- **Performance Tuning and Query Optimization:** Query execution plan analysis, index tuning, and SQL Profiler usage
- **Backup and Recovery:** Database backups, point-in-time recovery, and disaster recovery planning
- **Database Security:** Role-based access control, encryption, and auditing mechanisms
- **Azure Integration:** Azure SQL Database migration, monitoring, and cost optimization
- **Database Maintenance:** Automation using SQL Agent jobs, maintenance plans
- **Team Collaboration Tools:** Jira
- **Programming and Scripting:** T-SQL, PowerShell, Python (for automation and data analysis)
- **Data Visualization:** Power Bi (for creating visualization report of sql health check)

EXPERIENCE

SQL Database Administrator ----- **Dec 2021 – Present**

HCL Tech Noida, India

SQL Database Administrator

- Installed, configured, and patched SQL Server database software to maintain optimal system performance.
- Optimized query performance, achieving a 30% reduction in load times and significantly enhancing user experience.
- Maintained 99.95% database uptime by deploying advanced monitoring tools and implementing proactive maintenance strategies.
- Managed large-scale databases exceeding 50 TB, ensuring seamless support for enterprise-level applications and data processes.
- Strengthened database security by implementing encryption techniques and conducting regular audits, reducing vulnerabilities by 60%.
- Designed and executed comprehensive backup and recovery strategies, minimizing potential data loss and ensuring business continuity during disasters.
- Created and maintained detailed documentation of database configurations, procedures, and performance metrics for clear communication with stakeholders and efficient management.

Azure SQL Database Administrator

- **Cloud Database Management:** Managed and administered Azure SQL Databases, including deployment, configuration, and scaling to support business-critical applications.
- **Migration Projects:** Successfully migrated on-premises SQL Server databases to Azure SQL Database and Azure SQL Managed Instances, minimizing downtime and ensuring data integrity.
- **Performance Optimization:** Conducted performance tuning and query optimization using Azure SQL Insights, Execution Plans, and Dynamic Management Views (DMVs).
- **Backup and Recovery:** Designed and implemented automated backup strategies using Azure Backup and Long-Term Retention for high availability and disaster recovery.
- **Monitoring and Alerts:** Utilized Azure Monitor and Log Analytics to proactively identify and resolve database performance issues, achieving 99.95% uptime.
- **Security and Compliance:** Enhanced database security through Azure Role-Based Access Control (RBAC), Transparent Data Encryption (TDE) ensuring compliance with industry standards.
- **Cost Management:** Optimized resource utilization by leveraging Azure Reserved Instances, monitoring costs, and scaling database resources based on usage patterns.
- **Collaboration:** Partnered with cross-functional teams to integrate Azure SQL Databases with Azure Data Factory, Azure Synapse Analytics, and other Azure services to support data pipelines and analytics.

Digital Marketing Manager ----- Jan 2019 – Dec 2020
Jag mag Light Pvt Ltd Greater Noida, India

- Manage B2B, and B2C Platform Services to increase the 40 percent sale online
- SEO / SMM campaigns on social media platforms to reach the maximum number of people
- Maximize the organic reach and engagement of the website.
- Use Google Ads to generate leads and engagement

EDUCATION

- **NMIMS Deemed-to-be-University** ----- **Mumbai, India**
PGDBM-ITSM ----- *Jan 2021 – Jan 2023*
- **IEC College of Engineering and Technology** ----- **Greater Noida, Uttar Pradesh, India**
B.Tech – ECE ----- *June 2015 – May 2019*

CERTIFICATIONS

- Azure Certified Fundamental, Azure Administrator Associate - Microsoft
- SQL Database and Windows Server - HCL TSS
- SQL Migration and Upgrade - Udemy
- Query optimization - Udemy
- SQL Server Performance Tuning – Udemy

ACHIEVEMENTS

- **Client Recognition:** Received client appreciation for consistently delivering projects on time, showcasing a strong commitment to deadlines and quality work.
- **Process Automation:** Initiated and discussed automation strategies to reduce manual processes, significantly improving workflow efficiency and minimizing human errors.
